

Slab Built Mugs

Project Description

Create a pair of slab built mugs that memorializes or honors an important place, event, person or memory in your life. The pair of mugs will be connected by their design and the intended recipient(s)/purpose of the mugs.

Things to Consider

How will the handle and possibly the foot fit in with the overall theme/ design?

Will the seam of your mug be invisible or will it be a part of the design?

How will you create a “set” of mugs that “go together” ?

How will you add surface interest/designs that convey your meaning/idea?

Styles to Choose From:

Cylindrical

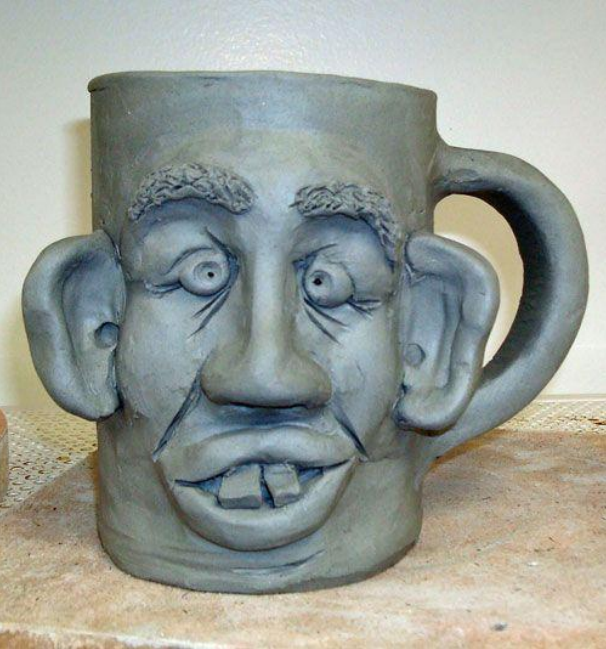

Tripod

Darted/square base

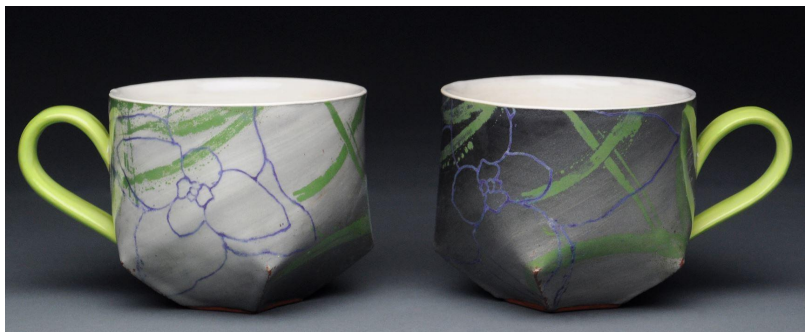

Cylindrical Mugs

Tri-pod Mugs

Darted/square base mugs

Getting Started

Go through and complete project packet and follow instructions on uploading to your bulb page.

(Sadly, whatever you don't finish today in class will be homework.)

If you finish early: come see me
